

HB TRUCK LOT CHEAT SHEET

This sheet is to help you come and go when we are not around.

How to enter?

To get in, enter through the rolling gate. To open the rolling gate, type code into Key Pad #1 (you can find your code on the top sheet of the checkout paperwork).

Note: After gate opens, the gate will close automatically after a short time.

If the gate is closed with a chain and padlock, the gate will need to be opened manually. To open, use the padlock key located on your set of truck keys.

How to leave?

When inside the gate, you can leave by opening the gate one of two ways:

1. By driving your vehicle over the orange target area near the rolling gate.
2. Typing in the gate code into Key Pad #2 (you can find your code on the top sheet of the checkout paperwork)

And always remember to...

Lock the Truck.

Despite the property having a secure front gate and security cameras, we recommend always locking the doors and the back gate of the truck.

Take care of the keys.

As the driver of the truck, you are responsible for the keys from checkout till return.

NEED ADDITIONAL TRUCK OR GATE ASSISTANCE?
